FREQUENTLY ASKED QUESTIONS

Q: Why are we changing our 7-day unlimited access to weekday + weekend afternoon access?

A: This change helps us protect Saturday–Sunday morning tee times for full-rate public play. Those prime hours are the club's highest-demand inventory. By adjusting season passholder access, we can maintain the golf course at a high level without raising your rates. In fact, the 2026 single pass remains the same price as 2024 and 2025. This strategy allows us to reinvest in course conditions and guest experience while keeping member pricing steady.

Q: Can I still play weekend mornings as a passholder?

A: Yes, but it will require a \$50 surcharge during peak season (May–September) and \$30 during off-peak (April & October).

Q: Will this change affect my value as a passholder?

A: The price remains similar to previous years, and passholders still receive unlimited golf during most of the week.

Q: How does this help the course?

A: It improves pace of play, opens up more high-value tee times to the public, and allows us to reinvest in course conditions and amenities.

Q: What if I'm part of a league?

A: Passholders still receive 50% off league play. League times are also being rebalanced to open more weekday space for other players.

Q: What if I only play mornings?

A: You can still play weekday mornings at no extra charge, or pay the weekend morning surcharge if you prefer those times.

Q: Why not offer both a full-access and limited-access pass?

A: We're focusing on simplicity and fairness. A single structure ensures all passholders receive the same benefits and avoids overloading the tee sheet.
